

CEI DriverCare Truck Driver Training

PROTECT YOUR DRIVERS AND YOUR COMPANY

Fleets that operate trucks of any size are challenged to prevent collisions and violations that endanger lives and increase liabilities. CEI DriverCare Truck Driver Training is here to minimize those concerns.

CEI, in partnership with Instructional Technologies, is introducing its Truck Driver Training e-learning library to its industry-leading integrated DriverCare driver risk profiling and remediation program. Featuring Instructional Technologies' PRO-TREAD* truck driver training modules, these modules are proven to change driver behavior through increased driver focus, engagement, and retention. CEI customers with light-, medium, and heavy-duty trucks can now realize the value of CEI's exclusive, fully-automated DriverCare driver risk monitoring and remediation program.

*PRO-TREAD is a service of Instructional Technologies
