

Correct the Most Common Fleet Driver Mistakes

CEI DRIVERCARESM ROAD TO SAFETY TRAINING

CEI knows that your employees are your company's most valuable assets, and ensuring their safety is paramount to your company's success. CEI is pleased to announce **Road to Safety**, a 3D graphics-enhanced, interactive fleet driver safety module.

The newest addition to our DriverCare training library, this lesson shows drivers how to overcome common fleet driver mistakes that contribute to collisions, injuries, unexpected repair costs, and downtime.

FEATURES

State-of-the-art 3D graphics for engaging visuals

Interactive training methodology

Topics include speeding, space management and distraction avoidance

Integrated exam ensures course comprehension

Comprehensive 12-15 minute experience

See the benefits of Road to Safety >>

Road to Safety Benefits

FOR DRIVERS

Enlightens drivers on the obvious and intricate dangers of speeding

Explains the importance and impact of time management

Reviews speed limits and how and why they are determined

Demonstrates how proper safety zones can reduce rear-end collisions

Increases awareness of distracted driving and how to guard against it

FOR COMPANIES

Increases the overall driving skill level of your fleet drivers

Provides an effective means of remediation

Reduces the risk of corporate liability in case of a crash

Supports your company employee safety initiatives
